

BRAIN STIMULATION

BAVARIAN STYLE

OVERVIEW

Learn how to safely and efficiently use TMS!

The two-day intensive course is designed for health care professionals and researchers who are interested in, or already working with TMS. The course is held by leading medical TMS professionals from the Ludwig-Maximilians-University Munich. Participants will receive tailored input in small groups, including academic lectures as well as extensive hands-on TMS training. The TMS-Days enable you to perform safe and efficient TMS, the prerequisite for profound therapy and research.

LEAD SPEAKERS

Prof. Dr. med. Frank Padberg • Medical Lead

Board member of the DGHP (German Society for Brain Stimulation in Psychiatry)
Director of the Munich Center for Brain Stimulation (MCBS)
Director of the Division of Psychotherapy and Psychosomatic Medicine,
Department of Psychiatry and Psychotherapy, Ludwig-Maximilians-University, Munich, Germany

Dr. Kerstin Häringer • Technical Lead

Technical Management MAG & More, Munich, Germany

Brain Stimulation Bavarian Style

The 14th TMS-Days will take place during the famous Oktoberfest in Munich. Known as the largest people's fair in the world, the Oktoberfest in Munich is Europe's largest beer-culture event, with 6-7 million people visiting every year. As a TMS-Days participant you will have the possibility to visit this event with an all-inclusive package "Brain Stimulation Bavarian Style".
